

WE ARE WOMEN TOGETHER

We're ready to welcome you back! We've all experienced a year like no other, in all sorts of way and missed each other's company at our regular meetings, workshop sessions and fun get-togethers. We know some of us have been able to stay connected through our screens with competitions, virtual shows and online events, but, it's just not the same, is it?

But, it's now time to start looking forward to Autumn, when we can hopefully re-open our institute and welcome you back again - without cameras and screens - to share, inspire and learn from each other. It's what we all love doing most! And enjoying a good natter of course!

BACK TOGETHER BLETHER

We're creating a national event where everyone can take part locally, to have a good 'Blether Together' to share companionship and friendship. More info overleaf.
